A.05-01-016 et al.: Application of Pacific Gas and Electric Company for Authority to Implement Default Critical Peak Pricing Rate Options For Large Customers and related matters

Pursuant to Pub. Util. Code Sec. 311(e), the digest of the substantive differences between the draft decision (mailed on March 23, 2006) and the alternate draft decision (mailed on April 11, 2006) is as follows:

The Alternate Proposed Decision varies from the proposed decision in that it adopts the settlements proposed by Pacific Gas and Electric Company (PG&E)/Southern California Edison Company (SCE) and San Diego Gas & Electric Company (SDG&E). Each utility is ordered to file an Advice Letter to implement the terms of its settlements no later than October 1, 2006, with an effective date of January 1, 2007.

The Alternate Proposed Decision also finds that PG&E/SCE proposed settlement should be made fully consistent with the law through the granting of an exemption for PG&E to Ordering Paragraph 8 of D.05-04-053 from application of that Ordering Paragraph to PG&E's 2007 GRC Phase 2 proceeding.

I certify that I have by mail this day served the Notice of Availability on all parties of record in this proceeding or their attorneys of record.

Dated April 11, 2006 at San Francisco, California.
